

XPRESSBUILD

SUPER FAST HIGH BUILD PRIMER

ProXL XpressBuild is an ultra high performance 1K primer, with excellent film build and hold up along with an exceptionally quick dry to sand time. It can be used direct to many substrates including bare metal and most plastics, and is suitable for water or solvent based topcoats.

- EXCELLENT ANTI-SAG QUALITIES - NO RUNS OR REWORKS
- VERY HIGH FILLING PROPERTIES - QUICKER COVERAGE OF SANDING MARKS
- EXTREMELY FAST DRY TO SAND TIME - FASTER THROUGHPUT OF PAINT JOBS
- EXCELLENT ADHESION TO BARE METAL & MOST PLASTICS - REDUCES THE NEED FOR OTHER PRODUCTS

SUITABLE SUBSTRATES

BARE METAL AND MOST PLASTICS

“ at 20 °C we were able to sand in under 10 minutes ”

“ For an extreme test we successfully covered P80 grit DA sanding marks with 3 coats. While we don't recommend excessive film thickness this demonstrates the XpressBuild's excellent ability to prime the most demanding repairs ”

AVAILABLE IN: GREY
COMING SOON IN BLACK, WHITE, RED AND BLUE
