### KIT BOX CONTENT

Variable Applicator Gun

4 x 1 Litre Kits

PROPELLING EXCELLENCE  
**PROXL<sup>®</sup>**

## How to set up ToughOX applicator gun

1

Push the dip tube onto the nozzle assembly

2

Fit the handle to the nozzle assembly

3

Attach the gun assembly to the ToughOX tin

4

Connect the gun to a suitable air line. You are now ready to spray!

5

The plastic nozzle assembly can be detached and discarded, or cleaned and re-used

## How to use the variable spray nozzle

1

Twist the nozzle to achieve different textures

2

Fine texture – nozzle fully in

3

Medium texture – nozzle half out

4

Coarse texture – nozzle fully out
